"If it be in thy power, remember the sick, the lame and the infirm, with charitable institutions for their benefit. It was one of the most praiseworthy customs of our forefathers, that, when blessed with riches, they applied a part of them to founding pious and charitable institutions. When God bestowed upon them bountiful superfluity during their lifetime, by their last testaments they gratefully returned a share of it to God. Their pious hearts, which called God the Father of All, were open to the love of their poorer fellow-creatures, and when the time came the needy were found numbered among their heirs."

## LEGACIES TO THE SOCIETY

The Society has always been greatly aided by this form of generosity. No precise words are necessary to a valid legacy to the corporation. The following form, however, may be suggested.

**OF THE**

**NEW YORK SOCIETY FOR THE RELIEF**  
**OF THE**  
**RUPTURED AND CRIPPLED**

The problem that confronts all those who are interested in this Institution is an economic one. The expenses have been doubled during the last three years, and the revenue has not been increased.

As this hospital is maintained mostly by voluntary contributions we will have to appeal to our friends to make a sacrifice and double their contributions, otherwise we will be confronted with a growing deficit.

With the end of the war, the different Medical and Surgical Associations have made a study of standardization to be applied to the different kind of hospitals. Special attention has been brought to have the records of patients taken in a scientific manner, so that they will be of the most value to the patient himself, and to the medical profession for scientific and statistical purposes. To that object in view we have, at considerable expense, established a new record room, and employed enough clerical help to keep up-to-date records.

During last year the services of a resident Pathologist and an assistant were secured for the hospital. It will be a great help to the Staff and will benefit the patients.

In the hospital wards 1793 patients were treated; 797 were discharged as cured, 970 improved, 59 unimproved, 18 died and 31 left the hospital without being treated. 2128 operations were performed during the year. The number of new cases recorded in the Dispensary during the year was 13,716; the number treated, 52,896. During the period from October 1 to May 11, 1919, we took care of 265 government patients.

To the physicians and surgeons, who at the beginning of the year, when numbers of our doctors gave their services to the United States, devoted the greater part of their time to the work in the hospital; to the volunteer aids who came to our assistance during the shortage of help; to all those who have con-

tributed to the entertainment and amusement of the patients, especially Dr. Francis Merchant, of the American Red Cross, and Mr. Marcus Loew, we wish to extend the thanks of the Board of Managers.

Notwithstanding the generosity of our friends and an increase in receipts, our deficit during the year amounted to \$22,714.97.

Among the urgent needs of the Institution are two private floors, one for male and another for female. There is a crying need in New York City for private accommodations for patients at moderate prices, and it is to fill this need for the orthopedic and hernia patients that the rooms are needed. We need more living room for nurses. A country home for convalescent patients has been needed for the last twenty years. It is to be hoped that we will, in the near future, get the necessary funds to carry on this work.

We appeal to all those interested in the Institution to come and see the hospital, so that they can have an idea of the magnitude of the work done, and if so disposed send their contribution to Mr. John S. Melcher, treasurer, 43 Cedar Street, New York City.

Very Sincerely,

JOHN N. STEARNS,  
*Secretary.*

TO THE BOARD OF MANAGERS  
OF THE NEW YORK SOCIETY FOR THE  
RELIEF OF THE RUPTURED AND CRIPPLED.

GENTLEMEN :—

It affords me pleasure in handing you the Fifty-sixth Annual Report to state that all of our surgeons who volunteered for service during the war have returned for duty and the work is going on as usual.

We treated in the wards 265 Army and Navy patients from October 1st, 1918, to May 11th, 1919, when the Government hospitals were again able to care for their own. It is gratifying to note that the officials in the Navy Department expressed themselves as delighted with the relief afforded and the efficiency with which the patients were handled.

There were 1400 orthopedic and 738 hernia operations performed during the year.

The American College of Surgeons, having requested a minimum standard of records for all hospitals in the United States and Canada, on a thorough investigation of our Institution have recently included our hospital among the number conforming with the standard. This gave us an opportunity to revise the system for the out-patients and I am pleased to report that it is in good working order.

The welfare of the patients has not been overlooked during the year. In addition to the efficient work of our Social Service, volunteers, both in the hospital and among the out-patients, have aided materially in tiding us over the acute shortage of help. To these, our friends in time of need, we tender our heartfelt thanks.

For the amusement of the patients, moving pictures, through the courtesy of Mr. Marcus Loew; entertainments by the Red Cross and the Stage Women's War Relief, helped them pass agreeable days, relieving the monotony of hospital routine.

Dr. Jeffries, in charge of the Pathological Laboratory, Mr. Percy C. Ashley, in charge of the X-Ray Department, and the dentist, Dr. Sophie Rosenbaum, have furnished most interesting reports and will be found on other pages.

Mr. Axel Hallbeck, for many years the director of physical culture and massage, continues to supply us with the necessary operators, who assist materially in the management of the many cases of infantile paralysis left over from the epidemic of 1916. His report will be found on page . .

In the Zander room, so generously equipped by a member of the Board, the late Mr. Geraldyn Redmond, fifteen hundred

treatments are recorded. We cannot speak too highly of the value and of the aid it has afforded in the treatment of joints disabled by disease or accident.

As in former reports, I take pleasure in commending most heartily the assistance given by the Robins Nest; it has taken splendid care of our children from May 1st to October 22d. With rare exceptions the boys and girls have returned in remarkably improved condition physically as well as mentally.

The Hernia rooms have been heavily handicapped by the absence of about two-thirds of the staff, who have been in the service of the United States, and yet the operations number 730 against 384 for the year preceding.

The same may be said on the orthopedic side which has also suffered from the lack of assistance by reason of the war. My colleagues, Drs. Royal Whitman and Henry Ling Taylor, have succeeded in rendering good service to the large number of out-patients, numbering some days over 360. They have not only been able to secure a good working staff but their work has not been confided to the out-patients and has been carried into the wards and operating rooms with an eye to the maximum benefit of both children and adults committed to our care.

Two of our attending physicians, Drs. Carlisle S. Boyd and James Nagle, were in the Medical Corps of the Army but their work has been carried on by Dr. Wallace Hamilton, who was at all times very prompt in responding to the numerous calls, especially at a time when the influenza epidemic was most prevalent.

It is with deep regret that I report the death of two of our former colleagues, while in the service of our country, Major Robert Hull, M.C.U.S.A., and Lieut. James Markley, M.C.U.S.A.

The nursing problem has been at times very acute because of the many who responded to their country's call and yet the emergency has always been met by Miss Jean L. England, our Matron and Supervisor of Nurses.

I cannot close this brief report without calling to your attention the able assistance given me in the management of the hospital by Mr. Joseph Dr. Flick, Superintendent. He has always been ready to co-operate in making the Institution stand for the best interest of the patients, not forgetting the educational advantages to be derived by the members of the staff and the profession at large.

Respectfully,

VIRGIL P. GIBNEY, M.D.,

**SIXTH ANNUAL REPORT**  
**OF**  
**THE SOCIAL SERVICE DEPARTMENT**

---

TO THE BOARD OF MANAGERS OF THE  
HOSPITAL FOR THE RELIEF OF THE  
RUPTURED AND CRIPPLED.

GENTLEMEN:

Living up to the natural tendency of the 20th Century, the Social Service Department of this Hospital has been forging ahead during the year of 1919.

Innovations introduced last year have been carried out with greater efficiency and better results, and in consequence the Hospital has been depending upon this Department more than ever.

The Children's Aid Society Cottage at Bath Beach again worked wonders for a number of our crippled children. The outing period was extended and their comfort materially aided—thanks to the clothing made through the kindness of Saint Bartholomew's Church, the Friends' Employment Society and the Church of the Ascension. The salaries at Bath Beach of one nurse and two assistants were provided partly by our Committee, but principally through our old and loyal supporter the A. E. Society.

The influenza epidemic of last fall placed an extra tax on both workers and funds; as home nursing, clothing, and more elaborate diets became necessary for families already under our supervision. In connection with this phase of our work, we wish to commend the unfailing co-operation of the diet kitchens throughout the city, and to thank many individuals for their generous contributions of clothing, food and money.

Furthermore, we must acknowledge with gratitude the splendid Christmas dinners donated through Mr. Vincent Astor, the Salvation Army and the Society of Elks.

But without the unfaltering enthusiasm and tireless energy of our able staff of workers, we would not have realized our present high standard of service. So once more the Advisory Committee extends to its workers especial praise.

(Signed) SARA DELANO REDMOND,  
*Chairman.*

GENTLEMEN :

The volunteer clerical work in the daily clinic was continued during the winter and spring and until October of 1919. The entries in the book were made, x-ray and admission cards filled out, plaster slips given to patients with the necessary instructions, endless questions answered and whenever possible dictations taken from the doctors.

The record system having now been taken over by the Social Service Department, the work has changed and enlarged, but there is an increasing need for volunteer help, and several of the workers have promised to start regular attendance at the clinics in November.

(Signed) MARY STURGIS WHITMAN.
